MY PROFILE

Enthusiastic and aspiring blockchain developer with a strong foundation in Solidity and JavaScript. Adept at designing, building, and deploying smart contracts on blockchain platforms. Proficient in React for front-end development and experienced in using Hardhat for smart contract development. Eager to contribute technical skills and passion for blockchain technology to innovative projects.

EDUCATION

Bachelor Degree of computer science
2019-2023
USTHB Algeria

EXPERIENCE

- **Designed, developed, and deployed a lottery smart contract on the Ethereum platform using Solidity.**
- **Spearheaded the development of a decentralized NFT marketplace on the Ethereum blockchain.**
- **Collaborated with a diverse team of developers to improve project functionality.**
- **Conceptualized, designed, and developed a cross-chain airdrop decentralized application (DApp) to facilitate token distribution across multiple blockchain networks.**

SKILLS

Solidity

Java Script

Git/Github

React/Next.js
